<b>Key Contact</b>	Group Manager Environment
<b>Effective Date</b>	31 August 2024
<b>Version No.</b>	2.0
<b>Country</b>	Australia (AU), New Zealand (NZ)
<b>Applies to</b>	Asahi Beverages Oceania Division, including partner businesses

Policy Details	
<b>Policy Statement</b>	At Asahi Beverages, we acknowledge the strong link between our raw materials and the environment from which they are sourced. Turning natural resources into high quality beverages for the enjoyment of our consumers is what we do. In doing this, we are committed to minimising the impact we have on the environment.
<b>Purpose</b>	This environmental policy addresses how Asahi manages and monitors its impact on the environment – both in its own operations and those of its supply chain.
<b>Eligibility or Scope</b>	This Policy applies to all Asahi Beverages employees, contractors and visitors.
<b>Responsibilities</b>	Recognising the importance of our environmental responsibilities, we commit to:
1. Compliance	Comply with all relevant environmental legislation and other relevant obligations.
2. Accountability	Communicate with the people at our workplaces about their environmental responsibilities, and provide them with the information, training and supervision required to understand and uphold them.
3. Management of systems	Implement and operate an effective, risk-based environmental management system.
4. Environmental impact reduction	Identify the environmental issues relevant to our business and take action to eliminate, minimise or mitigate their impacts. This will include but not be limited to:

	<ul style="list-style-type: none"> <li>Reducing our scope 1, 2 and 3 greenhouse gas emissions through improved energy efficiency, utilisation of renewable energy and working with our value chain.</li> <li>Improving the efficiency with which we use water, packaging and other resources.</li> <li>Moving towards zero waste to landfill by applying circular economy principles to our waste streams wherever practicable.</li> <li>Integrating environmental sustainability into strategy, product and packaging design and procurement.</li> <li>Protecting ecosystems and biodiversity through the prevention of pollution and promotion of sustainable agricultural practices with key suppliers.</li> <li>Collaborating with business partners, suppliers, industry bodies, government agencies, community groups and other concerned organisations to promote and drive environmentally sustainable practices.</li> <li>Addressing any environment incidents in a timely manner.</li> </ul>
5. Continual improvement	Establish, measure and review objectives and targets to monitor and continually reduce our impact on the environment.
